

Casey Barton Behravesh MS, DVM, DrPH, is the Deputy Branch Chief of the Outbreak Response and Prevention Branch, Division of Foodborne, Waterborne and Environmental Diseases, National Center for Emerging and Zoonotic Infectious Diseases, Centers for Disease Control and Prevention (CDC). She is a Commander in the United States Public Health Service. Since joining CDC in 2006, Dr. Barton Behravesh focused her efforts on investigating outbreaks of human illnesses caused by enteric pathogens, including *Salmonella* and *Escherichia coli* O157:H7, due to foodborne, waterborne, and animal contact. These multistate foodborne and zoonotic outbreaks include *E. coli* O157:H7 infections linked to petting zoos and contaminated meat products, as well as human *Salmonella* infections linked to dry pet food, small turtles, chicks and ducklings, and variety of foods. She also served as the CDC consultant to the National Association of State Public Health Veterinarians Compendium of Measures to Prevent Diseases Associated with Animals in Public Settings since 2007.

Dr. Barton Behravesh has a Master of Science in Veterinary Parasitology. She received her Doctor of Veterinary Medicine degree from Texas A&M University and a Doctor of Public Health degree from the University of Texas Health Science Center at Houston School of Public Health, both in 2005. She was an Epidemic Intelligence Service (EIS) Officer from 2006-2008 with the Enteric Diseases Epidemiology Branch at the CDC. She is board certified in the American College of Veterinary Preventive Medicine.
